### How it Works:

The Licensed Firm agrees to purchase a specified number of 1-year subscriptions to the Digital Edition of Paralegal Today based on the rate chart above. Discount levels begin at 20 subscriptions. Upon payment, a Subscription License Code is issued to the Licensed Firm and a set of ID verification numbers is set up in the Paralegal Today database, one for each person participating in the subscription group.

**The Licensed Firm** provides Paralegal Today with a secure list of the names and email addresses of each individual participating in the license group for verification and activation. Once activated, each subscriber can simply use their own firm email address to access the current and past issues of the magazine. Paralegal Today will send each user a memo welcoming them on behalf of their company as a paid subscriber and advising them that their Digital Subscription has been activated for immediate use.

**As each new Digital Issue is published** subscribers will receive an email notification saying it is available. The email will contain a link directly to the issue. Subscribers can read it online, on their iPhone, iPad or other electronic device. They can also access past issues to search for particular articles of interest. They also are allowed to print out pages from the digital editions for research or personal us.
